Our Story

Our journey began with a frustration shared by many parents: the struggle to find stylish, high-quality furniture for our kids. As designers, we were determined to create a solution while having fun in the process.

Inspired by the natural surroundings of our homeland in Patagonia, driven by the serene essence of the landscape, we embarked on an adventure to craft children's furniture from natural, textured wood while blending functionality, lasting quality, and impeccable style.

Tired of traditional white cribs and overly childish beds, we set out to design furniture that transcends children's spaces— Surco pieces are crafted to integrate effortlessly into any stylish home.
